

TRITON PROTECT ULTIMATE CERAMIC

Triton Protect Car Care System® provides long-term protection of the appearance of your vehicle. It also provides worry-free driving while you own your vehicle and guarantees a higher resale value at trade-in.

Ceramic Exterior Protection, Vinyl & Leather Conditioning, & Fabric Protection with Banoyl® Plus Customer Kit

This spray-on ceramic coating delivers a high gloss glass-like shine that is super-hydrophobic and protects your vehicle's exterior from outdoor elements. It does this by chemically bonding to the surface of your vehicle and repelling water, dirt, pollen, and other elements commonly found outdoors. Ultimate Ceramic gives your vehicle a brilliant light-reflecting shine and adds depth to any color paint. Cutting-edge Nano-Technology, when cured, forms a transparent glass-like shield that protects all vehicle surfaces.

Vinyl & Leather Conditioning

Sun and age have a way of fading and cracking your car's vinyl and leather. But we have a way of protecting them and making them look good in the process. Triton Protect Vinyl & Leather Conditioner gives vinyl and leather a soft finish and a beautiful, rich look. And it doesn't leave a greasy film.

- Conditions and protects
- Fights fading and cracking
- UV inhibitions seal out ultraviolet rays

Fabric Protection with Banoyl®

- Encapsulates the individual fibers
